

# 2019 Community Events

We think getting to know our customers is essential in understanding how we can continue to improve our service. Every year we attend community events where we have fun activities for children and useful information for the adults. We're always available for a chat about anything that is of interest to you.

We have our own water saving 'coconut shy' game for children and a range of **FREE** water saving products to take home.

All our community stands are manned by volunteers from various departments across the Company. So why not come and meet us at an event near you this Summer?

We're looking forward to meeting you.
